

Amendment to the Drawings

The drawings have been amended pursuant to the Examiner's request as noted in the Notice of Allowance. Specifically, Fig. 1 has been amended so that each view is separately labeled. A clean drawing sheet of Fig. 1 is attached.

REMARKS

The above Amendment is directed to correction to the drawings as required by the Examiner in the Notice of Allowance mailed November 8, 2004. The specification has been amended to conform to the drawing changes. A substitute specification is being filed herewith. The substitute specification includes no new matter. Therefore, this Amendment adds no new matter to the application. Because the application has been allowed and the issue fee is being paid concurrently herewith, the amendments merely place the application into better form for issue. Accordingly, the Applicants respectfully request entry of the Amendment After Allowance under 37 C.F.R. § 1.312 and the issuance of a post-allowance communication reflecting such entry.

Respectfully submitted,
